

Super Spars M7+ continues total domination at 2008 470 Worlds

470 Worlds 2008 Results — Overall

A stunning performance was achieved by sailors using Super Spars M7+ masts in the recent 470 Worlds in Australia, with **80%** of the top **20** crews in both men's and women's competitions using M7+, compared to only 4 crews (10%) using Selden masts.

In the women's competition this crushing domination was even more marked with **90%** of the top **20** crews using M7+ . The top **7** crews all used Super Spars masts with a considerable number in both competitions using Super Spars M7 Ultimate® super-stiff section, specially selected for light airs conditions.

This surely proves beyond all doubt that Super Spars M7+ and M7 Ultimate masts are the choice of 470 winners.

470 Worlds 2008 Results — Men

Rank	Nation	Sail no	Mast	Crew
