

Super Spars M2 continues total domination at 505 Worlds 2007

Super Spars masts continued to dominate the 2007 505 Worlds in Australia, with the first and second placed crews (and **75%** of the top **12** crews) using M2 rigs.

Between 2001 and 2007, **six** of the **seven (86%)** 505 World championships were all won using M2. This surely proves beyond all doubt that Super Spars M2 masts are the choice of 505 winners.

Summary of rigs used by winning 505 Worlds Crew

Year	Rig Used
2001	M2
2002	M2
2003	M2
2004	Proctor D
2005	M2
2006	M2
2007	M2

NB: 2004 winner used double spreader system—now banned. M2 was 2nd and 3rd
